

**Life In Cartoon Motion – how life should be**

Do you know that: You found a dance that you really like, but the music that goes with it is on a compilation CD? One dance – once CD – 15 tracks.

I always think: “What a pity. Why aren’t there more dances to the songs on this CD? Considering the price for a compilation CD.”

A really good example – how life should be, you know – is „Life In Cartoon Motion“ by Mika.
